Quiet Summer for Business; Recovery in Fall Predicted

Chamber of Commerce Statistician Sees Gradual Improvement After Harvest; Much Depends on Europe

WASHINGTON, June 10 .- A quiet summer for business, with more activity following the harvesting of the crops in the fail and a slow and grad-ual improvement from then on is fore-shadowed in the semi-annual report on

shadowed in the semi-annual report on business and crop conditions issued to-day by Archer Wall Douglas, chairman of the committee on statistics of the Chamber of Commerce of the United States. In his report Mr. Douglas states that no immediate return to prosperity is in sight and that there need be no delusions about a resumption of a war-time volume of business. "There is a growing realization of the fact," says Mr. Douglas, "that returning prosperity in this country depends upon the recovery of Europe, since she is and will be for a long time to come the best market for our surplus, for that surplus which we have accumulated and still have on hand in every phase of industry. Meanwhile the slow progress of business finds its chief stimulus in the gradual depletion of stecks both of merchandise and commodities, and that demand for replacement and rearity which in itself are modities, and that demand for replacement and repair which in itself produces the principal volume of our domestic commerce. There is still money to be spent where bargain prices are in evidence, showing that purchasing power is still high, despite many un-

power is still high, despite toward conditions.

"There is an almost unprecedented reduction of the cotton acreage in the South this year, with the plant still struggling against much wet weather and a late start. At the same time wheat promises a larger yield than last year by from thirty to forty million bushels.

Is fittle can insisting upon good quality at a medium price."

of the minerals, whether coal or copper or zinc or lead, have greater actual and potential capacity than there is any demand for in sight at present. Consequently mining in general is dull,

"There has been some increase in the output of automobiles, notably in certain localities. All the various phases of leather production and manufacture seem to have struck bottom, both in prices and in demand, and to have had some moderate healthy rebound. The steel industry is running on short time with limited output and reduction of orders in hand. Railroad shops are very quiet. Textiles, more

AMERICAN CAN CO.

A quarterly dividend of one and threecuarters per cent has been declared on the
Preferred Stock of this Company, payable
July 1st, 1921, to Stockholders of record
at the close of business, June 16th, 1921.

Transfer Books will remain open. Checks
R. H. ISMON,
Secretary and Treasurer.

Sokeloff.

Definite signs of a revival in activity are still lacking in the industries that supply equipment and certain classes of materials, according to the June bulletin of the Fed-

"Manufacturers who produce consumers' goods, on the other hand," says the bank, "in the main have received a fair number of orders, sufficient to warrant their operating at full capacity.

"One of the serious conditions, serious because there are possibilities of its being much better, is the slow growth of building, due to the continued high costs of the whole of construction. Until these costs are reduced building will be only such as comes from the impulse of necessity. Lumber naturally sympathizes with the inactivity of building and despite its low prices suffers from lack of demand.

Expansion in Baltimore

In Year Costs Big Sum Additional Employment Pro-vided for 12,000 by Industrial Development

trial Development
BALTIMORE, June 10.—In the year
closing May 31 capital investment of
\$21,675,500 was made in new industries
and plant expansion in Baltimore,
which will give additional employment
to 12,042 people, according to figures
issued by the Industrial Bureau of the
Board of Trade. Since its establishment two years are the bureau reports Board of Trade. Since its establishment two years ago the bureau reports the addition of \$95,922,700 in new industries and expansion, which required 52,842 additional workers. During May six new industries, requiring 595 employees and representing plant investment of \$310,000 and six expansions costing \$456,000 and requiring 110 additional employees were reported.

"While the last twelve months have marked a period of world wide deta-tion and depression," says the bureau, "the industrial expansion of Baltimore the industrial expansion of Baltimore has moved forward at a rapid rate. The 12,000 additional employees required is nearly 70 per cent more than the total increase in industrial employees in Baltimore during the fifteen years, 1899 to 1914.

"The wide diversity and high characteristics of the second of the s

acter of the new industries announced are even more important than the figures indicate. Branch plants of a number of America's leading industries are included among those acquired. Many lines of products not previously produced in Baltimore are also rep-

"The acquisition of new industries during the last two gears has been responsible, in large part, for the fact that the present national depression has been felt less keenly in Baltimore than elsewhere. Compared with other centers there has been but little industrial unemployment in the city and many of the new plants are not yet. dustrial unemployment in the city and many of the new plants are not yet imposing any demand upon the local labor market. With the completion and opening of these larger plants a substantial tightening in the local demand for labor is to be expected. During the year 1922 Baltimore should begin getting the full benefit from the new industries acquired during the new industries acquired during the last two years."

Business Failures Gain

Increase in Number Over Pre vious Week Reported

Commercial failures reported through-out the country this week increased in number compared to last week, which, however, consisted of but five busi-

failures this week, against 270 the previous week. In liabilities, 68 per cent of this week's failures were for less than \$10,000 each, 18 per cent ran

Rebuilding Reputations

The stores that in years past built up a reputation for quality apparently have suffered more in the last year or more than those entering to the control of footwear. In a word, each industry is affected by different conditions and is to be judged after this fashion.

"Mining in general is a striking example of a particular economic trouble affecting the country as a whole. Most The undersigned do hereby certify:

Basic Trades Lack Action of Manufactures

eral Reserve Bank of Philadelphia,

"Reports of April sales by department stores in this district, for the first time in twelve months, show a decline compared with sales in the corresponding month of the previous year. This decline amounts to but 0.4 per cent, as measured in dollars. cent. From these facts it appears that the public is buying a larger units than it was last year. There

"So true is this that it is actually curtailing business in these and other lines so affected, thus being a direct loss both to the producer and the transportation companies. One of the interesting developments of the time is the growth of the electric trolley car and the automobile truck in short hauls, in which they are already formaidable comparitors of the steam rail.

pleading Siver was taken back to jail.

When refused permission to see Siver yesterday Adele Gouin, the young waitress with whom he cloped, broke down and wept. Miss Gouin made three visits to the jail in the course of the day. When it became evident that she would not be allowed to talk with Siver she began writing him notes, telling him to keep up his courage—that she still loved him. Miss Gouin said she intended to remain in New Brunswick until after Siver has been sentenced.

Canadian Roads Plan Cut

Steps Taken for 12 Per Cent Reduction on July I MONTREAL, June 10.—Canadian railways, following the action of roads across the border, to-day took preliminary steps to cut wages 12 per cent if July 1. and later to revise working conditions.

Representatives of the various brotherhoods were requested to come here next Friday for a conferency, at which they will be informed by officials of the Canadian Pacific and Grand Trunk of the proposed cut.
